

OUR SUSTAINABILITY JOURNEY

OUR MISSION IS TO CREATE GREAT LIVING PLACES AND IMPROVE DAILY LIFE, WHILE PRESERVING THE FUTURE OF ALL.

This commitment is driven by our Glass Forever program, with the help of all our stakeholders: employees, customers, partners, suppliers....

From small seeds to big rivers, our vision is to grow our business and to differentiate, while improving our environmental footprint and increasing our contribution to people's well-being.

INVENT SUSTAINABLE BUILDINGS

DID YOU KNOW?

- 30% of our glass is made of recycled glass.
- Ensuring the right level of daylight can increase worker productivity by 18%. The additional light provided by our highly-transparent ECLAZ glass is comparable to making the window 8% larger.

ENCOURAGE EMPLOYEES GROWTH

DID YOU KNOW?

- We have divided our occupational accidents rate by more than 7 in 10 years.
- The average seniority in Building Glass Europe is over 13 years. A good sign that our people enjoy their company.

LIMIT OUR ENVIRONMENTAL IMPACT

DID YOU KNOW?

- All our glass factories (floats) are environmentally-certified (ISO 14001).
- In the last 5 years we have reduced our CO₂ emissions by 5%, which is the equivalent of driving an inloader (glass truck) 4000 times around the world.

TAKE ACTION ACCROSS THE SUPPLY CHAIN

DID YOU KNOW?

- 15% of our "inloaders" (special glass trailers) are used for rail and sea multimodality.
- Our major suppliers engage with us by signing our responsible purchasing charter.

SUPPORT LOCAL COMMUNITY DEVELOPMENTS

DID YOU KNOW?

- Our Saint-Gobain Foundation has to date backed 115 projects, committing €7.3m to the construction and renovation of comfortable, affordable and sustainable housing.
